

IMPROVING ACCESS TO DIAGNOSIS, TREATMENT AND CARE FOR PATIENTS WITH RARE DISEASES

A unique multi-stakeholder approach

The Rare Disease Action Forum (RDAF) is a not-for-profit multi-stakeholder organization in the rare disease field in Switzerland. The RDAF brings together patient organizations, the industry, healthcare providers and research organizations.

Through this unique collaborative approach we provide a platform for holistic and balanced exchange of ideas, with a view to finding consensus for united action.

Improving access for patients with rare diseases

Our members share the common goal to improve the lives of patients with rare diseases in Switzerland, by:

- Raising awareness about rare diseases
- Improving access to diagnosis, treatment and care

The RDAF addresses rare disease specific challenges related to the Swiss regulatory environment, value assessment of orphan drugs and other processes impacting rare disease patients.

Aeschenvorstadt 52 | CH-4051 Basel

To achieve its goal, the RDAF:

Evaluates policy and regulatory developments in the rare disease field and develops joint positions

Seeks dialogue with actors from the rare disease community to develop understanding and consensus

Organizes multi-stakeholder events to foster exchanges on important issues for rare diseases
